The Situation at Present in All Branches of Labor is Considered Critical—The Operators Discharge All Their Committees and Adjourn Sine Die.

PITTSBURGH, Pa., Aug. 26.-Coal operators of the Pittsburgh district made a decided change in front since Tuesday. Internal dissensions, mixed with fear on the part of some, caused a split in their forces, and a change of base. On its face the move looked to many like a temporary surrender to the United Mine Workers of America. This, however, is denied in most emphatic terms by the most prominent lake shippers, who say they are going to start their mines and supply the demand from the northwest and not stand idly by and let a large volume of business go to other states. They publicly state that they are willing to wait for a week or ten days before a decided move is made. They claim that this will give them ample time to get the lake trade. Some of the operators in the meeting were frank enough to state that the situation at the present time in all branches of labor is critical and that they have no desire to make any move that would east odium on the operators of the Pittsburgh district.

It was under these conditions that the operators went into session Wednesday morning. There were many who had not signed the agreement to share their porttion toward he expense that might acru in the effort to start the mines and they were the loudest in the appeals to hold aloof to await developments. It was proposed notices printed in rious languages embracing briefly the position of the operators and also a final notice to the miners that the mines were ready to be operated as soon as the men expressed a desire to go to work. This proposal was barely entertained and voted down, showing that many of the operators had receded from the stand they had taken. A motion to discharge all committees and adjourn sine die was made and

In the afternoon another meeting of the most prominent and largest lake shippers was held. The session was short and as a result the following was issued by their press committee.

"The organization composed of all the coal operators, which has been in session at the Monongahela house, adjourned Wednesday morning sine die. This action put affairs into the hands of a committee appointed Wednesday morning under an agreement which was entered into at Cleveland and which has since been ratified and strengthened by the signatures of a large majority of the railroad coal producers of this district. This committee is vested with discretionary power to act."

All efforts to find out who composed his special committee were futile. The press committee, after repeated entreaties, refused to divulge the names of the committeemen.

J. P. Zerba, who presided at the meeting, was emphatic in asserting that the operators who had originally gone into the compact at Cleveland to break the strike had not changed their intentions.

THE AFRIDIS

Causing Considerable Trouble on the Frontier of India.

Khyber Pass Falls and the Kurram Valley Threatened.

The Mohmand Tribe Are Meditating a Renewal of Hostilities-Indian Government Most Pace a Grave Crisis Involving Expenditures and Loss of Life.

LONDON, Aug. 26,-The latest dispatches received from the front indicate that the situation on the frontier is getting worse. It is evident that the Indiau government must face a grave crisis involving heavy expenditure and probably great loss of life,

The government is confronted with

the following state of affairs: Khyber Pass has fallen into the hands of the Afridis; the posts in Kurram valley are threatened by the powerful tribe of the Orakzais; the Mohmand tribsmen are meditating a renewal of hostilities around Fort Shabkadr, while thousands of troops are engaged in crushing the revolt in the Swat valley and two large brigades are holding the Tochi valley where the Mahsud-Maziris are again restless.

The authorities are convinced that Fort Ali-Musjid could only have fallen after desperate fighting, as the native garrison of Khyber rifles was made up of men who rendered valuable assistance in the Black mountain expedition of 1888. The fall of the fort is a very serious blow, for it isolates Fort Lundi-Kotal, which is at the extreme end of Khyber pass, garrisoned by 300 Khyber rifles, and necessitates the prompt re-

conquest of the pass. This is certain to prove a formidable task, of which the British troops had a foretaste on Monday, when a body of artillery, cavalry and infantry left Ft. Barra, south of Peshawur, in order to repel the Afridis, who were then advancing down the Bazai valley. The troops returned early Wednesday morning and reported that many of the men had dropped out for want of water, none being procurable along the route. while the Afridis, although shelled by the British, maintained their position on the heights, threatening the loyal village of Kadam and the British position. Fort Jamrud, at the mouth of the

Fort Jamrud is held by a strong force of British and native troops and the British front extends about 88 miles from Shabkadr along the north side of the Cabul river and southward to Peshawur, where the troops are massing as the base of a demonstration against the Orkaczai, who occupy the region south of the Afridis, but have not yet assumed the belligerent proportions of their northern neighbors. There is an uprising, however, of small parties, which is proving troublesome near Kohat, and it is expected that both tribes will try to close the Kohat pass. Numbers of tribemen are mov ing up toward Khyber from Kohat and that district, making the sait tariff the pretext for hostilities.

Fell Into a Geyser.

LAKE HOTEL, Yellowstone Park, Wyo. Aug. 26.-George B. Ernshaw, a prominent Philadelphian, came near losing his life while at Fountain hotel walking into one of the geyser pools in the rear of the hotel. He was walking backwards, beckoning to some friends, when he tripped on a stick and fell backwards into one of the bottomless boiler geysers. He fell upon a ledge under five feet of water and was rapidly slipping off its cone to certain death when he grasped a pole over hanging the edge of the pool and by the assistance of those near by was rescued. He was badly burned. Post Surgeon Godfrey dressed his burns which are not believed to be fatal.
